

# The BUMP Bulletin

## January 2020

### Dates to Remember:

1/20– No School  
(MLK Jr. Day)

## Happy New Year!

Welcome back! We hope that everyone had an enjoyable break and we are glad to be back. The weather has certainly been mild, but there is still more winter sure to come. As a reminder, should BUMP need to close due to weather, we will post closure notices on our school Facebook page, Channels 4,6, & 10, send a Remind Text blast, and an email blast.

## Re-Enrollment

Thank you so much to all the families who have already submitted their re-enrollment paperwork! If you haven't been able to yet, no worries! We have blocked off some priority spaces for BUMP families. Please let us know if you need another copy of the re-enrollment paperwork or have questions about signing up.

We are still grouping the classrooms by birthday and offering the choice of days as well as part or full time. The earlier that you register, the better your choice of options will be. You may also enroll siblings who will be 3 and potty trained this fall. They must be 3 by August 18<sup>th</sup> to start on BUMP's first day. Please see us in the office to pick up an enrollment packet.

Please let us know if you have any questions or need help with the paperwork!

## Tax Statements

Childcare tax statements for 2019 were emailed out this week. If you did not receive yours, please let us know so that we can make sure we have the correct email for you. For your reference our tax id number is 31-438-4855.

## Illness Reporting

Winter often brings with it various illnesses. We just wanted to remind families that we will email & post a notice outside the classroom if there has been a confirmed parent report of a communicable disease as outlined by the Ohio Department of Health. The notice includes symptoms to watch for as well as the communicable period. Some examples of communicable diseases which should be reported include: croup, chicken pox, fifth disease, flu, hand foot & mouth, impetigo, lice, measles, staph, and strep. If in doubt, it's better to report it than not. We can only share the information if we have the information. We keep illness reports confidential only noting the date the illness was last reported with no names given.
